

## Lamparero '87 Endows Industrial and Systems Engineering Scholarship

Juan Manuel Lamparero of Mexico recently gifted a \$25,000 industrial and systems engineering scholarship. The Veronica and Juan Manuel Lamparero Endowed Scholarship will provide scholarships to full-time students in the Department of Industrial and Systems Engineering who are members of the Society of Mexican American Engineers and Scientists (MAES) or the Society of Hispanic Professional Engineers (SHPE).

Lamparero holds a B.S. degree from Texas A&M in industrial engineering and an MBA degree from Heriot Watt University in the UK. He is founding partner and CEO of Industrial Solutions Technology of Mexico, a company which delivers information technology solutions with an emphasis on information technology security. He has three times won the Aggie 100 Award, which is sponsored by the Mays Business School to recognize the fastest growing Aggie-owned or Aggie-led businesses in the world.

Lamparero is married to Veronica and they have two children.

He is a member of the Texas A&M Hispanic Former Students Network.
